The **Stone Mountain Sword Speaker Microphone** is a replacement for OEM microphones and is ideal for Law Enforcement, Firefighting, and Industrial users. The Sword comes with All-Clear microphone and acoustic speaker porting for superb audio quality and maximum performance in wet environments. A large 50mm speaker produces clear reception in loud environments. Solderless electrical assembly and dependable gold contacts throughout ensure quality performance.

Rugged, high quality cables in standard 2.5mm, 3.5mm, and 6 pin Hirose accessory interface configurations are available in regular and short cable lengths for maximum operational comfort. Volume control and emergency buttons are optional. Automatic gain control is available, or select a manually adjustable control for optimum microphone sensitivity in all environments.

The Sword is available in regular, fully featured, and antenna optional versions. The compact sized speaker microphone is waterproof and will meet your most demanding requirements.

Stone Mountain is committed to the design and development of innovative and rugged audio accessories for the Land Mobile Radio (LMR) and Public Safety markets. LMR customers are typically users in the public safety and heavy industrial sectors that require top quality and extremely rugged products that can stand up over the long haul. Stone Mountain also specializes in custom solutions for those clients who need unique and specialized communications solutions.
